Logistics Documentation / Travel Information

How to reach San Paolo Albanese (PZ), Terranova di Pollino (PZ), and Alessandria del Carretto (CS)? This document provides information on the various means of transport, schedules, and costs to reach the three locations: San Paolo Albanese and Terranova di Pollino, located in the Basilicata region (Province of Potenza), and Alessandria del Carretto, located in the Calabria region (Province of Cosenza).

By Plane:

The airports closest to the three locations are:

Bari International Airport (BRI)

Brindisi Airport (BDS)

Lamezia Terme International Airport (SUF)

Naples International Airport (NAP)

Rome Fiumicino Airport (FCO)

Rome Ciampino Airport (CIA)

Approximate distances from the destinations:

Bari (BRI) and Brindisi (BDS): ~170 km

Lamezia Terme (SUF): ~200 km

Naples (NAP): ~260 km

Rome (FCO/CIA): ~500 km

You can find flight arrival and departure information on the official airport websites:

Bari Airport: <https://bari.airports.aeroportidipuglia.it/>

Lamezia Terme Airport: <https://sacal.it/it/lamezia-terme/>

Naples Airport: <https://www.aeroportoedinapoli.it/>

Rome Fiumicino Airport: <https://www.adr.it/fiumicino>

Rome Ciampino Airport: <https://www.adr.it/ciampino>

By Ferry:

Ferries may be a convenient option for participants travelling from Balkan countries. The nearby ports of Bari and Brindisi offer ferry connections to and from Albania, Greece, and Croatia.

You can find information on various ferry companies operating in Puglia here:

<https://www.traghetti.com/traghetti-puglia>

By Train:

Train services in Italy are primarily operated by the state-owned company Trenitalia, with a private high-speed operator, Italo, also available.

The nearest train stations are Sibari (CS), Metaponto (MT), and Policoro (MT). However, it is generally recommended to travel by train to Taranto (TA) or Bari (BA) and then switch to a bus to reach Policoro (MT) or Senise (PZ) with more suitable schedules.

Senise (PZ) is approximately 35 km from the final destinations.

Policoro (MT) is approximately 60 km from the final destinations.

Train company websites:

Trenitalia: <https://www.trenitalia.com/it.html>

Italo: <https://www.italotreno.com/it/destinazioni-orari>

By Bus:

Buses might be the most convenient option for reaching these mountain locations, as regional bus services can connect directly to the three towns. Regional Buses: Services in Basilicata are operated by companies within the Cotrab consortium (which includes Sita Sud), and in Calabria by SAJ.

Important Considerations:

Regional bus schedules are often tied to school timetables. Service may be unavailable on Sundays and public holidays. Frequency is very limited (often only 2-3 trips per day). Schedules and stops may not coordinate well with long-distance bus services, sometimes having completely separate stopping points. Local municipalities are reportedly working on providing shuttle services to help overcome these connection issues.

Regional Bus Information:

SAJ (Calabria): <https://www.saj.it/linee/regionali>

Cotrab (Basilicata): <https://www.cotrab.it/biglietterie-cotrab/>

Long-Distance Buses: Several long-distance bus companies serve the nearby towns of Senise (PZ) and Policoro (MT), from which you would need further local transport. These companies include: Flixbus (major operator); Intersaj; Itabus; MarinoBus; Ventre Autolinee; Curcio Autolinee; Marozzi VT; Grassani e Garofalo

Note: You will need to check the specific websites of these long-distance carriers for routes, schedules, and booking.
